DEATH RECORDS 1868

Due to the age of these records and the older style penmanship of that time period, we realize there are many mistakes in these names as we try to decipher the spelling. It is our hope that researchers doing research are familiar enough with the names they are researching to recognize the names that are misspelled on our part. More information is available on the Death Records. The place of birth, the cause of death, and the place of death has been omitted from the transcribed records. This additional information is available in the records at the Probate Court.
